Open Discussion

Discussion and question about Dog poop along all the walks, no resolution. The recycle bins do not have lids and on windy days are sources of trash blowing in the neighborhood. Ron will call to see if there is an option that would help. In the mean time, it was suggested to add an article in the Newsletter about not putting the bin out if it's windy and you are home or just put a rock on it. There was also sharing about "No Solicitation" signs. They are ignored by most but could deter neighborhood efforts like Girl Scouts, Mo High students, etc that we would want to see. Board will look at an entrance sign solution.
